

EARLY CHILDHOOD EDUCATOR

Kindergarten

Phorms Education currently runs five bilingual, German-English nurseries within Heilbronn and the surrounding area as part of a cooperation with the Schwarz Group. We care for children between the ages of 0 and 6 years in an open and partially immersive concept with native-speaking professionals. Our facilities offer well-equipped functional rooms and outdoor play areas. The pedagogical focus is on bilingualism, music and STEM - the children always remain at the centre of our needs-oriented work and are involved in the day-to-day life of the nursery. Our company childcare is growing - more facilities are being planned.

The company nurseries are part of the Phorms Education SE network of bilingual schools and nurseries, that has been enriching the educational landscape in Germany since 2006.
